## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election of Group I, claims 1-3, in Paper No. 5 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

Claims 4-9 stand withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Election was made **without** traverse in Paper No. 5.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. **Claims 1-3** are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "joined" in claims 1 and 3 is deemed vague and indefinite. Clarification is requested.

The recitation "said center core member in a side of said end portion of said first flat face sheet is not joined to said first flat face sheet" in claim 1 is deemed vague and indefinite. Clarification is requested.

The recitations "bent in a midway" and "each of said first flat face sheet and said second flat face sheet is respectively one sheet" in claim 3 are deemed vague and indefinite. Clarification is requested.

***Claim Rejections - 35 USC § 102***

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. **Claims 1 and 2** are rejected under 35 U.S.C. 102(b) as being anticipated by Verschaeren (5,491,032).

Verschaeren discloses a first flat face sheet (Fig. 1, #2), a second flat face sheet (Fig. 1, #4), a flat center core member (Fig. 1, #3) joined to the first flat face sheet and the second flat face sheet, characterized in that an end portion of the second flat face sheet (#4) is positioned shorter than end portion of the first flat face sheet (#2); and the center core member (#3) in a the of the end portion of the first flat face sheet (#2) is not joined to the first flat face sheet (#2). Regarding claim 2, the end portion of the second flat face sheet (#4) is positioned shorter than end portion of the flat center core member (#3).

It has been held that a recitation with respect to the manner in which a claimed product is intended to be employed does not differentiate the claimed product from a prior art product satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).

6. **Claim 3** is rejected under 35 U.S.C. 102(b) as being anticipated by Le Plae (3,222,769).

Le Plae discloses a first flat face sheet (Fig. 3, #3), a second flat face sheet (Fig. 3, #3), a flat center core member (Fig. 3, #6) joined to the first flat face sheet and the second flat face sheet, characterized in that the first flat face sheet (Fig. 1, #3), the second flat face sheet (Fig. 1,

#3), and the flat center core member (Fig. 1, #6) are bent in a midway; and each of the first flat face sheet and the second flat face sheet is respectively one sheet (Fig. 1, #3).

It has been held that a recitation with respect to the manner in which a claimed product is intended to be employed does not differentiate the claimed product from a prior art product satisfying the claimed structural limitations. *Ex parte Masham*, 2 USPQ2d 1647 (1987).
